

Did you know... Our Gay Parenting Assistance Program (GPAP) Helps Make the Dream of Fatherhood a Wider Reality!

What is GPAP?

Men Having Babies created The Gay Parenting Assistance Program (GPAP) as part of our mission to make building a family more affordable for gay prospective parents that need financial assistance for their surrogacy journey. GPAP annually facilitates over a million dollars worth of financial support for gay prospective parents in two forms:

Stage I provides prospective parents who qualify based on financial need and other criteria access to discounted services from IVF, surrogacy, egg donation and legal service providers. *Over 200 couples or individuals worldwide are approved to such discounts annually.*

Stage II matches couples or individuals who are selected by the grant committee with participating providers who donate free services as well as provide cash grants. Recipients are guided and supported by MHB throughout the process until the birth of their child.

"MHB helped make the dream of building a family a reality now, not later."

GPAP 2018 Annual Summary Statistics

Stage II babies – 32
Stage II applications – 100
Stage II 2108 recipients – 19
Stage I applications – 351
Stage I approved – 199
